Animal Reproduction Science, 34 (1994) 347–349
Elsevier Science Publishers B.V.

Contents of *Animal Reproduction Science*, Volume 34

Vol. 34 No. 1 **November 1993**

In vitro fertilization of bovine oocytes in the presence of theophylline
Y. Takahashi and N.L. First (Madison, WI, USA) 1
Enzyme immunoassay (EIA) for milk progesterone using a monoclonal antibody
A. Waldmann (Tartu, Estonia) 19
Hormonal control of plasminogen activation in bovine gonadal cells: investigations using domain-specific monoclonal antibodies
M.N. Leonard and N. Jenkins (Canterbury, UK) 31
Plasma catecholamines and blood chemistry in newborn calves in relation to different obstetrical procedures and to neonatal outcome
W.W. Chan (Vienna, Austria), F.H. Jonker (Utrecht, Netherlands), W.-D. Rausch (Vienna, Austria) and M.A.M. Taverne (Utrecht, Netherlands) 43
The reproductive performance of Border Leicester × Merino ewes immunized against testosterone and cortisol
R.J. Scaramuzzi, R.M. Hoskinson (Blacktown, Australia) and Y. Cognié (Monnaie, France) 55
Production and characterization of domain-specific monoclonal antibodies against tissue-type plasminogen activator
M.N. Leonard, W.L. Campbell and N. Jenkins (Canterbury, UK) 69

Guide for Authors 85

Vol. 34 No. 2 **December 1993**

Effects of progesterone and cortisol on the release of gonadotropin-releasing hormone from the perifused pituitary stalk–median eminence and on luteinizing hormone release from the pituitary of cows
N. Kawate, T. Inaba and J. Mori (Sakai, Osaka, Japan) 93
Time of onset and potential length of the breeding season of Icelandic sheep: Luteal activity
J. Eldon (Reykjavík, Iceland) 101
Genetic and phenotypic relationships between gestation length, litter size and litter birth weight in Yankasa sheep
O.A. Osinowo, B.Y. Abubakar and A.R. Trimnell (Zaria, Nigeria) 111
Plasma progesterone profiles, ovarian response and embryo recovery in crossbred ewes superovulated during breeding and non-breeding seasons
V.K. Sharma, R.C. Gupta, S.K. Khar and N.K. Khurana (Hisar, India) 119
The effect of method of oestrous synchronisation on the response of ewes to superovulation with porcine follicle stimulating hormone
C.L. Scudamore, J.J. Robinson, R.P. Aitken and I.S. Robertson (Aberdeen, UK) 127

Effects of culture time, ovarian activity, cumulus cells and sera on the nuclear and cytoplasmic maturation of pig oocytes in vitro
M.B. Ocampo (Sapporo, Japan), L.C. Ocampo (Nueva Ecija, Philippines), I.S. Ryu, T. Mori, J. Ueda and H. Kanagawa (Sapporo, Japan) 135
Prolactin administration during the follicular phase of cyclic sows
L. Dusza, R. Ciereszko, S. Okrasa and G. Kotwica (Olsztyn, Poland) 147
Subcellular location of the maturation process of relaxin in rat luteal cells during pregnancy as revealed by immunogold labeling
T. Kohsaka (Ami, Inashiki, Ibaraki, Japan), H. Sasada and J. Masaki (Sendai, Japan) 159
Fecal estrogens in one primate and several ungulate species during various reproductive stages
C. Chapeau, G.J. King (Guelph, Ont., Canada) and E. Bamberg (Vienna, Austria) 167

Announcement from the Publisher 177

Vol. 34 Nos. 3–4 **January 1994**

Endocrine and ovarian responses and pregnancy rates in dairy cows following the administration of a gonadotrophin releasing hormone analog at the time of artificial insemination or at mid–cycle post insemination
D.P. Ryan, S. Snijders, T. Condon (Fermoy, Ireland), M. Grealy, J. Sreenan (Belclare, Ireland) and K.J. O'Farrell (Fermoy, Ireland) 178
Genetic studies on fertility in AI bulls. II. Environmental and genetic effects on non-return rates of young bulls
E.-M. Stålhammar, L. Janson and J. Philipsson (Uppsala, Sweden) 193
Biopsy of Indian Zebu and crossbred cattle preimplantation embryos and sexing by polymerase chain reaction
K.B.C. Appa Rao, S.M. Totey and C.H. Pawshe (New Delhi, India) 209
Oestradiol and the surge release of gonadotrophins in the ewe
I.B.J.K. Joseph, W.D. Currie, J.P. Ravindra, S.J. Cook and N.C. Rawlings (Saskatoon, Sask., Canada) 217
The effect of supplementary long days, a subcutaneous melatonin implant and exposure to a ram on the onset of the breeding season in ewes
A. Donovan, M.P. Boland, J.F. Roche and D. O'Callaghan (Dublin, Ireland) 231
Effect of immunisation of ewes against α 1-26 inhibin fragment on antibody titres, ovulation and lambing rate
M.P. Boland, S.J. Sunderland, D.H. Williams (Dublin, Ireland), M. Kane, D.R. Headon (Galway, Ireland) and J.F. Roche (Dublin, Ireland) 241
Inhibition of FSH but not LH affects spermatogenesis in the mature ram
R.J. Kilgour, M. Courot, C. Pisselet, M.P. Dubois (Monnaie, France) and M.R. Sairam (Montreal, Que., Canada) 253
Seasonal infertility, stress and adrenocortical responsiveness in pigs
S.S. Wan (Bundoora, Vic., Australia), D.P. Hennessy (Attwood, Vic., Australia) and P.D. Cranwell (Bundoora, Vic., Australia) 265
Timing of sequential changes in chromosome configurations during the second meiotic division and cytoplasmic events of pig oocytes matured and fertilized in vitro
M.B. Ocampo, L.C. Ocampo, T. Mori, J. Ueda and H. Kanagawa (Sapporo, Japan) 281
The effects of mating on the sexual receptivity of female alpacas
J.C. Pollard, R.P. Littlejohn and I.C. Scott (Mosgiel, New Zealand) 289
Effects of a single combined dose of pregnant mares serum gonadotrophin and human chorionic gonadotrophin on ovulation rate in young rabbits
C.G. Gravance (Davis, CA, USA) 299
Quality and fertility of cooled rabbit semen supplemented with cyclic-AMP stimulators
M.N. El-Gaafary (Zagazig, Egypt) 307

Ovarian hormone secretion and embryo development during early pregnancy in mink and ferrets
A.C. McRae (Saskatoon, Sask., Canada) 315
Stimulation of aspartate aminotransferase from farm animal semen by pyridoxal 5′-phosphate
A. Ciereszko, J. Glogowski, W. Demianowicz and J. Strzezek (Olsztyn-Kortowo, Poland) ... 327
